

# PARENT WORKSHOP

## COLLEGE BOUND SERIES

# College Bound Parent Workshop Series

Once a student is in his or her junior & senior year of high school and graduating, the college admissions frenzy begins. From choosing between an array of colleges, managing application deadlines, and requirements, writing application essays, and contacting college admissions offices - it can definitely get overwhelming for the student.

These workshops are designed for parents and families who want to support our 11th and 12th-grade students in the college application/admission process.
